# Project 76 Computer Riser - Installation Instructions

WARNING: Do not allow threadlocker (e.g. Loctite) to contact the riser, this will void the warranty, as it will weaken the base materials and lead to product failure.

1) Remove Project 76 computer mounting plate from body, with 2mm Hex.

2) Install riser onto Project 76 mount, *CAUTION* the riser locating pins are fragile and will shear if riser is twisted.
3) Torque the 3mm mounting bolt to 2Nm *(17.5 in-lbs) max* with 2mm hex driver.

4) Place the computer mounting plate onto the riser, align the two locator tabs perpendicular to the riser.

5) Torque the 3mm mounting bolt to 2Nm *(17.5 in-lbs) max* with 2mm hex driver.

6) Remount Project 76 (if needed) and adjust tilt to angle computer as desired.

7) Ride and enjoy!
