

Sawyer Plug Kit - Installation Instructions

- 1) If desired, place the elastic cord around the center of the filter (Squeeze and Micro) into the recessed groove. Secure with a square knot.
- 2) *If purchased*, install the coupler with the interrupted threads facing away from the filter.
- 3) Install the clean plugs (blue or green) onto the clean end, and dirty plugs (orange or red) onto the dirty end.
- 4) Insert shock cord previously tied to the filter through the holes in the plugs, set the distance and secure with an overhand knot.
- 5) Trim cord to the desired length.

TIP: Pull the cord away from the plug when installing or removing the plug.

TIP: When filling a bottle, attach the clean cap to the clean side plug.

- 6) Drink and enjoy!
